

DON'T UNDERESTIMATE THE VALUE OF INSULATION

DID YOU KNOW?

Only **20 percent** of homes built before 1980 are **well insulated**.

FACTS ABOUT PROPER INSULATION

In the same way a jacket keeps you warm, proper insulation helps protect your home and your family from the cold

Adding insulation can reduce your energy bills and increase the overall comfort of your home

Upgrading your home's insulation is one of the fastest and most cost-effective ways to increase your energy efficiency

DON'T SETTLE FOR ANYTHING LESS THAN YOUR **PERFECT MATCH**

NATURAL FURNACES are environmentally responsible and offer convenience, comfort, efficiency and reliability. Natural gas furnaces:

- Cost less money to operate than electric and propane models
- Provide heat that is up to 25 degrees warmer than an electric heat pump
- Are more affordable to operate than electric, fuel oil and propane models
- Last longer and are more efficient
- Emit up to 40 percent less carbon emissions than an electric heat pump

COMPARE THE COSTS*

Electric	\$876
Natural Gas	\$494
<i>Annual Savings</i>	<i>\$382</i>

Propane	\$1,808
Natural Gas	\$ 494
<i>Annual Savings</i>	<i>\$1,314</i>
