

Experience the comfort and reliability of a **tankless** water heater.

### **Tankless** natural gas water heaters

- Cost significantly less to operate than electric and propane models
- Free up floor space
- Save money by only heating water when it's needed
- Emit up to half the CO<sub>2</sub> greenhouse gases compared to electric models

A natural gas tankless water heater is **66 percent less expensive** to operate and produces **63 percent fewer emissions** compared to an electric tank model.

Piedmont installs and services most tank and tankless water heaters, and is proud to offer Rinnai tankless water heaters.
