

YOU CAN
REPORT
NATURAL
GAS THEFT
ANONYMOUSLY

TAMPERING WITH OR BYPASSING A NATURAL GAS METER IS A DANGEROUS AND ILLEGAL ACT.

When people tamper with meters or install connections to divert natural gas to their property, they are endangering you, your family and/or your business.

In 2013, North Carolina and South Carolina classified natural gas theft as a felony. We are working closely with authorities across our service territory to identify and prosecute this very unsafe behavior.

You can help us by reporting any suspected natural gas theft. You can call us **anonymously** at [1.800.752.7504](tel:1.800.752.7504).
