BUYING A NEW WATER HEATER? CONSIDER LOW-COST NATURAL GAS.

Natural gas water heaters typically cost about **45 to 60 percent less** to operate than electric models. They heat water twice as fast and provide plenty of hot water. Most models even operate during power outages.

You'll fall in love with the savings, comfort and convenience.

DON'T SETTLE FOR ANYTHING LESS THAN YOUR **PERFECT MATCH.**

COMPARE THE COSTS

Electric	\$498
Natural Gas	\$197
<hr/>	
Annual Savings	\$301
